

## CityVu M-Series Multislide Doors (M2055, M2065, M2075)

A natural blending of technologies have formed the base properties that make up CityVu M-Series Multislide Doors.

From the Azon® Polyurethane Foam, Azo-Brading and the addition of SolidCore™ infused door panels, the M-Series Doors have been built to maximize structural and thermal performance.

The result is an abundance of natural daylight, full ventilation, maximum energy efficiency and a custom architectural style.

Unique to the market, the SolidCore™ Thermal Barrier System integrates an Azo-Core high-density foam that acts as an insulator against the natural conductivity of heat and cold; allowing for superior energy performance and product integrity regardless of size or operational style.

# CityVu M-Series Multislide (M2055, M2065, M2075) Highlights, Performance and Operation

- Thermally Broken Aluminum Frame and Panels
- Azon™ Polyurethane Thermal Barrier in Frame
- SolidCore™ Thermal Barrier in Doors
- Corner Key Frame Technology for Maximum Structure Performance
- Butt Joint Panels
- Stainless Steel Quad Precision Bearing Roller System
- Removeable / Replaceable Sill
- Integrated Sill Pan acts as a Starter Strip
- Integral Extruded Nail Fin (Optional)
- 3" Sightlines with 4-1/2" Bottom Rail
- High-Performance 2604 and 2605 Powder and Class 1 Anodized Finishes
- Custom Color Matching and Heat Reflective Paint Options
